Innovating for quality
7 – 11 March 2016
UNESCO, Paris

Webinar
Monday 7 March
Debate the extent to which mobile technology can facilitate learning and strengthen the quality of education alongside a distinguished online panel. Virtual event organized in partnership with Education Fast Forward.

Workshops
Tuesday 8 March
Receive hands-on training and experience interactive demonstrations of educational technology and ICT-enhanced pedagogy from mobile learning specialists.

Symposium
Wednesday 9 March
Join world experts as they share mobile learning innovations and examine strategies to leverage ICT to improve the quality of education. Participate in a rich programme of breakout sessions, plenary addresses and panel discussions.

Policy Forum
Friday 11 March
Learn how policies and cross-sectoral collaboration between ministries of education and ministries of technology can foster innovation to improve the quality, equity and accessibility of education. Organized in partnership with ITU.

Quality education is crucial
Across the world students are still in need of the skills and competencies necessary to succeed in knowledge economies, despite being enrolled in formal education. MLW 2016 will examine how technology can help fill the gap and foster innovation within the education sector to better ensure high-quality learning opportunities for all.

Join the conversation and register for free
Increasingly technology is pushing us to re-think traditional models of education and explore how innovation can enhance the quality of learning. Join UNESCO at MLW 2016 as it works with experts from around the world to understand and harness the potential of mobile technology to advance quality education for all.

Event objective
The goal of MLW 2016 is to help UNESCO Member States and other stakeholders better leverage mobile technology to improve education access, equity and quality in line with the United Nations Sustainable Development Agenda.

Share your experience and knowledge
UNESCO is accepting presentation proposals for Workshops and Symposium breakout sessions until early 2016. Submit your proposal today using the UNESCO website.

To register, read the event concept note, and submit presentation proposals, please visit: www.unesco.org/new/en/mlw
UNESCO and its partners look forward to welcoming you at MLW 2016!
