

Attn: Samit Aich (Executive Director, Greenpeace India)

Cc: Rajnath Singh (Ministry of Home Affairs)

Dear Samit,

We're writing to tell you how we feel about our work and Greenpeace India. Some of us have been here since the early days, when we campaigned for justice for the victims of Bhopal. A few of us are very new, and we're proud to have worked in many solutions projects across India on food, climate and energy.

Each of us is worried about what's happened over the past few months to Greenpeace and civil society. Our friends and families are reading about us in the newspapers and are worried about us and our jobs. Despite these concerns, we want to reaffirm our passion and commitment towards the environment and for this organization. As part of our country, we want inclusive and sustainable development. That means playing a part in preserving our forests, keeping our air clean and our food safe

We're aware that we're going through a financial crisis, but we want to assure you that we're in this together. We'd like to pledge to continue our work for at least a month, without pay, starting June 1. We realize that this will place a strain on our finances and our personal commitments, but we're determined to work through it. We will look out for and support each other in all ways.

We don't know how life will be after the month of June. But it is fitting that we're making this commitment in the month of the World Environment Day. It gives our promise more purpose and meaning. This is not just about us but also about our friends and allies across India who are facing or may face similar situations. We believe that our environment is something worth fighting for together and we are happy to do this.

Whatever happens over the next few weeks, we know that the spirit of Greenpeace India will survive. We are there to nurture and protect it, and we're with you.

Sincerely,

- | | | |
